- CIOs & CXOs: 40%
- VP/AVP – IT: 15%
- Heads of IT: 25%
- Digital/Initiatives Leaders: 10%
- Others / Product & Engineering Leaders: 10%

Key Insight:

A majority of attendees were at the forefront of driving enterprise digital transformation and AI adoption, ensuring highly contextual discussions around AI-powered productivity.

Conclusion:

The session highlighted how redefining Human-AI collaboration is no longer optional, but critical for enterprises aiming to elevate efficiency, decision-making, and customer engagement. With insights from ObserveNow, Persistent Systems, and Google Cloud, the discussion showcased how organizations can harness AI to empower agents, streamline workflows, and unlock new levels of operational excellence.

Together, the event provided a valuable platform for senior leaders to exchange ideas, share strategies, and explore actionable approaches to shaping the future of Agent Space, where humans and AI collaborate seamlessly to drive transformative outcomes.

Industry Insight:

- 92% of B2B marketers find in-person events deliver the highest ROI compared to other marketing channels.(Source: Gartner (2024))
- 1 in 2 event attendees convert into qualified leads, with 20–30% progressing to active sales conversations within 30 days. (Source: Bizzabo (2024))
- Buyers are 1.7x more likely to finalize decisions after face-to-face interactions versus digital-only engagements.(Source: McKinsey (2023))

And ObserveNow events consistently exceed these benchmarks:

-  80–90% of attendees report a better understanding of our partners' products and solutions after direct, in-person interactions.
-  On average, 60% of event attendees become direct business leads, and within that, 40% express clear interest in exploring partnerships or solutions further.
- ObserveNow, Ankercloud, and Google Cloud look forward to enabling more such interactive leadership engagements in the journey of digital transformation.
